

MDI GURGAON IN ASSOCIATION WITH EMERALD EMERGING MARKETS CASE STUDIES

announces

CASE DEVELOPMENT, MENTORING AND PUBLICATION WORKSHOP

Background

Case method is one of the most effective management education pedagogy. It involves the faculty leading learners through a historical analysis of a business situation. The learners come up with a solution to some of the toughest business problems. Cases are commonly used as the medium for interactive classroom discussions and active class participation helps them develop the skills required for making decisions. The effectiveness of a case lies in providing learning experiences that are remembered by students beyond classroom. The issues and concepts in a case may be absorbed in much greater depth than lecture based learning method.

Emerging Markets present immense opportunities along with challenges and constraints. Well established business models are replaced by new ones often. There is a need to understand the issues specific to each emerging market, India being one, and develop classroom learning material related to various business concepts and management disciplines.

Emerald Publishing Limited, a leading international publisher has a special collection of cases called the Emerging Markets Case Studies, EEMCS. The unique feature of this collection unlike other case collections is the Emerging Markets Context. EEMCS welcomes well-researched, instructive and multi-media online cases about the most interesting companies in complex Emerging Market contexts, to be used by faculty to develop effective managers globally.

MDI Gurgaon, being a leading business school from India takes the responsibility of developing unique case content and developing management faculty across B Schools for the same. After a successful edition in 2020 where 9 cases were submitted with no rejection, the second edition of the CASE DEVELOPMENT, MENTORING AND PUBLICATION WORKSHOP would be held by MDI Gurgaon in association with EEMCS with live sessions from May 10-12, 2021 at MDI Gurgaon.
