

Students from 20 nations to converge at MDI this summer

GURGAON: Management Development Institute, located on the outskirts of the Capital, launched a novel concept of 'international summer university' on Tuesday.

The programme is a first-of-its-kind in India, where students from 20 states and 20 countries will study together from an array of faculty members from universities around the globe.

"The basic idea behind this initiative is to provide meritorious Indian students from remote corners and small towns exposure to the increasingly global nature of businesses, with a multi-cultural classroom guided by faculty from reputed international B-schools and universities," said Dr Neera Jain, MDI spokesperson.

Future benefits

After pursuing these courses, students will have an opportunity to supplement their learning on their home campuses. MDI has also joined hands with several institutions in the recent past.

After the recent MoU with Kashmir University, MDI Gurgaon on Tuesday signed another MoU with National Institute of Technology, Kurukshetra.
