

Research Assistant (RA) on contract
Centre for Behavioral Science & Neuroscience Lab

MDI Gurugram invites applications for the position of Research Assistant for the Behavioural Neuroscience Lab - on Contract. We are looking for a self-motivated, highly active and productive academic, who will be expected to do research and also support the running of the laboratory and consult other researchers on the use of the experimental method.

Job Overview:

The Centre for Behavioral Science & Neuroscience Lab at MDI Gurgaon is seeking a highly motivated and detail-oriented Research Assistant (RA) to support ongoing research projects in the field of behavioral science and neuroscience. The ideal candidate will assist in data collection, data analysis, literature reviews, and other research-related activities under the guidance of the Centre Chair. This position offers an excellent opportunity for individuals seeking hands-on experience in behavioral research and a chance to contribute to the advancement of knowledge in this dynamic field.

Key Responsibilities:

- Assist in the design and implementation of behavioral research studies.
- Collect, organize, and analyze research data (qualitative and quantitative) using relevant tools and software.
- Conduct literature reviews and summarize findings relevant to ongoing research projects.
- Administer surveys, interviews as needed.
- Assist in the development of research protocols and ensure adherence to ethical guidelines.
- Support the preparation of research reports, publications, and presentations.
- Maintain accurate and organized records of data, materials, and participant information.
- Communicate with research participants, ensuring they are well-informed about the study process.
- Help with any other administrative tasks as required.
- Stay updated on the latest developments in behavioral science through continuous learning and professional development.

Qualifications:

- Bachelor's degree in Psychology, Behavioral Science, Social Science, management, or related field (Master's degree is a plus).
- Experience in conducting research, particularly in behavioral science, is preferred.
- Strong analytical skills and familiarity with statistical software (e.g., SPSS, R, Python).
- Excellent written and verbal communication skills.
- Ability to work both independently and collaboratively within a team environment.
- Strong attention to detail and organizational skills.
- Familiarity with research ethics and protocols in behavioral science.

Desirable Skills:

- Experience with qualitative research methods (e.g., interviews, focus groups)
- Familiarity with programming languages or tools for behavioral data collection (e.g., E-Prime, Qualtrics).
- Interest in advancing research in neuromarketing, consumer behavior, finance, economics, Organisation Behavior or any related areas.

Last date of receiving applications along with supporting documents is 30th November, 2024.

Application Instructions:

Interested persons may send their resume/CV and cover letter to **Chief Administrative Officer (Admin.)** at nonacademicrect@mdi.ac.in along with copies of the testimonials. In the cover letter, explain your interest in the position and how your skills align with the responsibilities of the role.
