

MDI Gurgaon to host the Voices of Change at TEDxMDIGurgaon on 10th of August

India, 9th August, 2024: An idea can change the world. But, what if as many as eight inspirational speakers share a platform, spread their pearls of wisdom, and inspire one and all? And, what if the best and brightest of the country, that one would normally find at MDI Gurgaon, are among the audience? Surely, it would then be an event to savour, and an experience to cherish. This is what **TEDxMDIGurgaon** promises to offer on August 10.

On the 10th of August, an impressive line-up of speakers, ranging from the very original Ankur Warikoo – author, entrepreneur and content creator, all rolled into one, to Awdesch Singh, educator and ex-IRS officer, to Shazia Ilmi, politician and ex-journalist, will engage and inspire. Others among the speakers on the occasion would be Akash Gupta, co-founder and CEO of Zypp Electric; Dr Anand S, data scientist, co-founder and CEO of Gramener; Major Vandana Sharma, retired from military and now an entrepreneur, mentor and coach; Puneet Rao, fitness influencer; and Vicky Roy, international photographer. They will talk about their life journeys and life lessons.

With the second such event in two years on the coming Aug 10, [MDI Gurgaon](#) carries forward the tradition of dialogues, debates and enlightened discussions. After all, the MDI student is known to believe in the adage – “be the change that you wish to see in the world”.
